Exchange Quiet.

More spring weather to-day; clouds in the morning-sunshine at night—Stock Exchange clouds and sunf-shine. Nearly up to noonday the dreary duiness of the past week still continued, but after that time a spirit of activity, begotten of a smart rise in prices, ruled in place of previous lethargy. The prevailing bearish feeling, which has grown stronger day by day, and created a very familiable short interest while at had created a very formidable abort interest, while as in a same time it naturally offered an inviting opportu-nity for a sudden twist upward of the whole specula-

conders of the market and was as quickly acted upon. The ball opened with Lake Shore, which danced up from 59%, at the commencement, to 61 at the close, and the spirit of hilarity permeated the entire market While it was "sauve qui peut" to bears—who saw no fun in the thing—bulls were jubilant and as proud of their horns as was the force that attacked Jericho.

The turn in the market was managed with infinite ikill, and was undoubtedly the result of a concerted movement, planned with discretion and put in force the right moment. The magnetism of a radical nge in operations was quickly observable in Western nd in the St. Paul stocks. As an additional help this ist named security was officially reported to have ained some \$16,000 for the last week in March over he same period of last year, which had the effect of narking up the common stock from 39% to 41%, and e preferred from 65% to 67, though there was a fall-

og off of one-half per cent in the latter at the close. Though the curve be the line of beauty to the eye of noral disciplinarian who sees no excellence in rregularities, be they in the shape of artistic forms or in conduct of life. Thus the course of Pacific Mail to-day (at the best a 'loose fit' in stock market es' eprehensible in the extreme. Instead of going down his morning, as it should with all decency have done, ander the publication of the damaging Panama circular, it started upward from 18½ to 19½, next fell off to 18%, and ultimately, under the bull spasm we have spoken of, rallied to 19, at which it closed.

There was a move upward in Western Union from 35 4 to 69, but the latter price did not hold at the end,

stocks in any general movement, as though it were a first class leper in a lazar house, refused to be influunced the arrival of the English Commission at tucenstown. The news of their arrival, with bag and aggage (third rail and coupon scheme inclusive), rightened up the quotation, which had been 19% at he start, to 20% at the finish.

ffect of the unfavorable report published yesterday nd sold down one point, while shares of the Consolidation Coal Company, of Maryland, advanced to 45, or four points above the ruling rate of a day or two ago. This advance is said to be predicated upon the adjournment of the Maryland Legislature for two years and the consequent impossibility of any further legal interferen with their railroad tolls. The conversion from the bear to the buil side to-day, if it had been spiritual inbear to the buil side to-day, it it had been spiritual in-stend of secular, would have delighted the hearts of Moody & Sankey. Unfortunately the change was of the earth, earthy—a mere matter of dollars and cents. The fact remains, nevertheless, that a bullish feeling has suddenly sprung up, like cucumbers under a forc-ing frame, which, however palatable to-day, may prove

tions at the Stock Exchange to-day aggregated 152,735 shares, which were distributed among active securities as follows:—New York Central and Hudson, 300; Erie; 16,500; Lake Shore, 48,100; Island, 350; Pacific Mail, 23,200; St. Paul, 10,900; do. preferred, 7,260; Ohios, 2,000; Western Union, 27,650; Wabash, 600; C., C. and I. IMPORTANT TO MERCHANTS.

[From the Montgomery Advertiser.]
We understand that in some counties the Probate
Judges claim that the county has the right to collect \$25 from drummers for county purposes. The language of paragraph 9, section 7, of chapter 9, of the Revenue

\$25 from drummers for county purposes. The language of paragraph 9, section 7, of chapter 9, of the Revenue law, is as follows:—

9. For drummers, commercial travellers, or agents who sell goods, wares or merchanduse by samples, \$50. The payment of this tax to the State, evidenced by the receipt of any Frobate Judge, shall exempt from payment of this license in any other county.

The officials who claim the right to collect this license for county purposes, hold that the language of the paragraph simply means that a State license can not be collected in but one county, while each county is left free to collect a county license.

But we desire to call attention to paragraph 17, same section and chapter, which says:—

17. For each sewing machine company, selling machines by themselves or their agents, the sum of \$100 as a State tax. The payment of this tax to the State, evidenced by the receipt of any Probate Judge, shall exempt the company from payment of this State tax is any other county: provided, however, that in each county in which the company may have an agont, a license of \$20 shall be paid for county purposes.

Mark the difference. Paragraph 17 provides expectably for collection of a county license, while paragraph it seems to us is conclusive that no county become is required of drummers.

[From the Mobile Registes.]

The "drummer tax" is not discriminatory. It applies to Alabama merchants sending out their agenta, as well as to these foreign drummers who press the each cord soil. The dissursement of \$50 gives them the tree-com of the grows.
